

XP-PEN®
GRAPHIC TABLETS
NOW AVAILABLE IN INDIA

Star G640

Just for Fun.

- Easy to start creating with, but don't let its size fool you. Delivers a performance that is second to none
- At only 2mm thick, the Star G640 is as slim as it gets. And its 6x4 inch active area provides a convenient and portable platform for your on-the-go design requirements
- Best-in-class 8192 level pen pressure sensitivity allows you to create variations in line width & opacity like never before, giving you a real pen-on-paper feel
- The advanced battery-free stylus does not require charging ever, allowing for constant uninterrupted usage. Also, no batteries means no clumsy wires and a cleaner & greener environment
- Serves as a great input tool for digital signatures, OSU! gameplay, digital drawing, painting, sketching, etc.
